

ttdsoft – WA Premium and WAM Pro

Step - Add Licenses in ttdsoft encryptor.

1. After Payment, licenses will be sent by email or WhatsApp no.
As per your requirement,
WA-Premium [for Windows and Android]
WAM – pro [for Windows, Android and Mac]

2. Click on icon of ttdsoft encryptor.

3. First time, secure secret code screen will appear.

4. Put your secret code and writes it down, in safe and secret place
It is a very **important code**, as with use of this code encryption of
Your digital content will be done.

Choose a secure Secret Code and remember it.

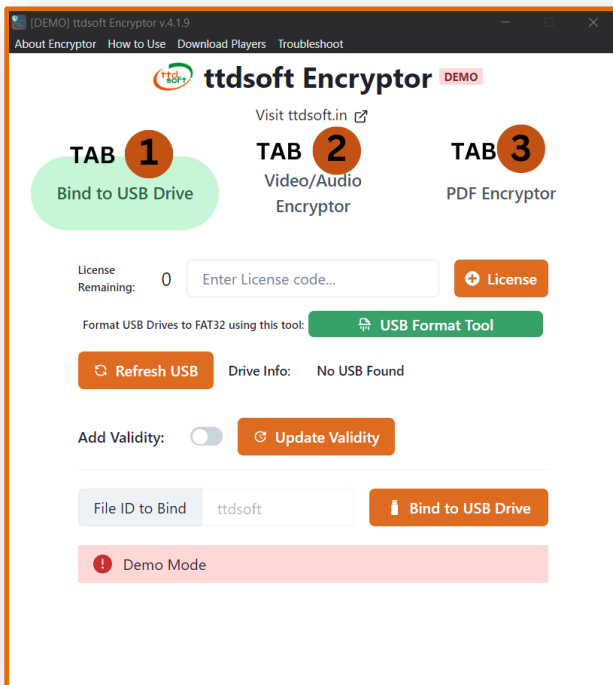

This secret code will be used to encrypt files and create USB drive protection.

..... Show

Save Secret Code

5. Now click on "Save Secret Code".

6. After saving "Secret Code", this screen will appear.

Here there are three Tabs

Tab 1) Bind to USB

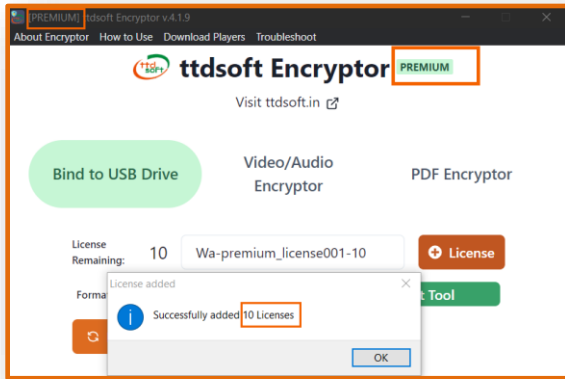

Tab 2) Video / Audio encryptor

Tab 3) PDF encryptor

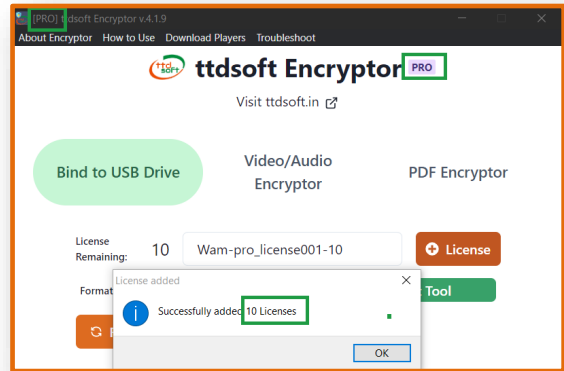

7. Adding of licenses can be done here

License Remaining: 0 Enter License code... + License

8. After adding WA-Premium licenses the screen will show **Premium with No's of licenses added.**

After adding WAM-Pro licenses the screen will show **Pro with No's of licenses added.**

9. Now your ttdsoft encryptor will work in Paid Mode [full license-mode] In this learning –we will take **WAM – Pro Licenses.**
